Helping institutions manage compliance & risk

## Development Consulting

Applied Compliance Services has the experience and expertise to reduce your in-house burden with policy and procedure writing and development. Whether an entire risk management or information security program, or specific policy or procedure development, we can help.

Assisting customers with internal development projects has always been a sought-after service from Applied Compliance Services. We have helped many institutions with a variety of solutions including:

- BCDR, Business Continuity and Disaster Recovery Plans

▶ Understanding the difference between RPO, Recovery Point Objective, and RTO, Recovery Time Objective. RPO meaning the length of time between your back up and the failure. This drives decisions on how often an institution creates a backup. RTO defines how long an institution is willing to be back on line following a disruption in services. Balancing the two involves budget discussions as well as understanding Risk Tolerance.

- Pandemic Continuity Plans

▶ Identification of appropriate mitigation and protective measures, to include measures necessary during a pandemic influenza; An operational plan to provide and implement selected mitigation, prevention, protection, or control measures, to include those necessary during a pandemic; and for those essential functions that employees must conduct onsite, organizations must classify jobs by exposure risk level to pandemic influenza. Organizations must notify these employees that they are expected to work onsite during an influenza pandemic.

- Incident Response and Reporting Plans
- Vendor Management Programs
- Information Security Programs
- Risk Management Programs
- IT Risk Assessments

▶ Assess the institutions inherent IT Risks across the organization,  
▶ Provide regular reports to the board on IT Risks, IT Strategies, and IT Changes.

▶ Develop and implement an IT Strategy to support the institutions business strategy and its risk appetite.

- Specific Policy Language

▶ Policies used in subjective decision-making usually assist senior management with decisions that must be based on the relative merits of a number of factors, and as a
